Third Issue.

2½ Piastre.

Second Printing 1874. Perf 12½ x 13½.

Second Printing 1874. Perf 12½.

Sheets were perforated by two single line machines horizontally and vertically. Occasionally a sheet was perforated horizontally and then, through lack of continuity, the sheet was perforated vertically on the same machine. On the lower example this happened and the right hand vertical margin was left without perforations to make this a very rare partially perforated pair.
