

# Egypt

Third Issue

First Printing 1872

Typograph

20 Para.

Perf  $12\frac{1}{2} \times 13\frac{1}{8}$ .

Plating

46	47
56	57

The plating of the 20 para, which was completed by Major E.L.G. Mac Arthur, M.C., C.de G., produced evidence that 201 stereos had been used for a sheet of 200 stamps. The reason for the extra one was that stereo 7 on Row 12 had a badly blown frame and was replaced by a substitute stereo.

Original stereo

Stamp 117. Substitute stereo
